Dear

Is your book available for eBook readers to purchase?

Yes? Congratulations! You have drastically expanded your book's market. No? Well what are you waiting for? Converting your book/books to eBooks is one of the fastest, most economical ways to expand your market. They sell themselves on Amazon, Barnes and Noble, Google, PublishAmerica, and/or Chapters Indigo in Canada . It all depends on which sites you choose to have your eBooks uploaded to.

Why do readers purchase eBooks?

Convenience is probably the number one reason people love their eBooks. They are able to carry their entire library on one lightweight tablet. An eBook reader saves on valuable space, is lightweight and easy to tote around. The wireless functionality of many eBook readers means avid readers never have to worry about running out of books to read. They can browse and shop right from their reader and download new books instantly.

Another valuable advantage for eBook readers is their accessibility. If they have vision difficulties, the ability to change and increase font size is invaluable. eBook readers are lightweight and easy to hold, making them invaluable to those with arthritis or other problems that make reading hardcover books painful to impossible.

Most eBooks are cheaper than their paper equivalents, and in your case, this is certainly true. Many eBook readers are also green, saving paper and as a result, trees.

EBooks are not the future. They are the present, and they are here to stay!

Call me today to activate the option/options of your choice.

Google eBook \$59

Nook eBook \$59

Kindle eBook \$59

Kobo eBook \$59
